Espresso £1.95

Made from the finest Arabica beans grown high in the Sul de Minas region of Brazil. Our Fairtrade, freshly roasted beans offer an abundance of tasting notes these include dark chocolate, treacle and almonds. With a crema as golden as the sun the beans are grown in, you won't be disappointed.

Flat White £3.25

Using our Fairtrade beans, we extract a delectable espresso which is then topped with roughly 120ml of latte-style foam used to create intricate latte art.

Café Latte £3.50

Extracted Sul de Minas espresso, mixed with roughly 180ml of latte-style foam, not too foamy whilst remaining delightfully textured. Served in our house latte glasses.

Cappuccino £3.50

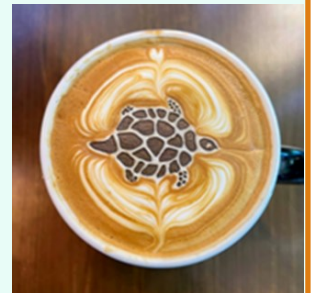

Arabica espresso topped with milk which is around 70%-80% foam, Fairtrade milk chocolate powder is then sprinkled atop this luscious drink. A cappuccino can be ordered wet (less foam) or dry (more foam)

Latte Macchiato £3.75

Coming from the Italian word to stain, a Latte Macchiato is the reverse of a Café Latte. First, we pour the same amount of milk into the latte glass, then we pour the espresso into the drink which not only "stains" the foam, but also creates beautiful layers as the espresso mixes in with the textured milk.

Iced coffee £3.50

Firstly, we scoop a generous amount of ice-cubes into a cup. Then, we pour onto the ice, some lightly textured milk. Finally, we pour over the extracted espresso to create a summery caffeine boost.
